The TrueCafecrackkeyGenserialKey is a mysterious device used by the druids, and believed to be one of the most powerful artefacts in modern society. With over 3000 years of history and with the ability to wreak havoc upon almost anything, this ingenious tool has been hiding in plain sight all along. Recently discovered, the TrueCafecrackkeyGenserialKey has been found to be a very low-tech device that uses a common string and an earth magnet, although the mechanism by which it works is unknown. It is said that the druids used this device until around 3000 years ago when they disappeared, but it appears to have remained well-kept and working all this time. It is believed that the druids knew of many uses for this instrument; including balancing delicate ecosystems, building tools and even repairing coffee machines.

Jorge Pacheco for The Guardian: "Some analysts believe that this simple technology can be used to reshape our entire planet and bring peace to humanity. Others claim that the existence of this technology will lead to the destruction of our species, with many theorists predicting that it will have enough power to destroy the planet if it falls into the wrong hands. While it is known how to create a TrueCafecrackkeyGenserialKey, the mechanism by which it works remains unknown. It is believed that this is due to its creators being able to change its form at will, allowing them to avoid being tracked down by their enemies. The only known reason that the druids were able to keep such a device secret was because they were able to destroy it to avoid its discovery. If the druids had not destroyed this artefact, other people might have found and developed it and used it for their purposes. The TrueCafecrackkeyGenserialKey has been described as a very basic technology but with one major function: creating chaos. With this tool, the druids were able to create earthquakes, volcanoes and make the earth shift; all of which would damage any structures that stood in their way. This powerful war tool could also be used by other people but these claims are unproven. In many medieval texts, it is said that the druids used the TrueCafecrackkeyGenserialKey to help bring about the apocalypse. The tool was attached to a string and then used to pull on it. Eventually the string would break and then cause a chain reaction that would end in a massive explosion. The same thing is believed to have happened at the beginning of time; when God created the planet and everything else inside it. It is believed that such an event caused such devastation that it basically erased all of human history until humans started rebuilding themselves again.
